

UWCHLAN TOWNSHIP

**REIMBURSEMENT AGREEMENT**

NOTICE TO ALL APPLICANTS AND DEVELOPERS

The Township's consulting engineer is required to review all erosion control, site development and subdivision plans. The fee charged by them to review the plans will be paid by the Township.

The Township must be reimbursed by the Applicant/Developer for any costs incurred fore reviews made by the engineer and for subsequent inspections of site or subdivision improvements made by them. Furthermore, the cost of any meeting held with our consulting engineer or the Township Solicitor at the request of an Applicant/Developer and/or their Architect or Engineer must also be responsible for reimbursement. Bills will be mailed for all reimbursable fees at the prevailing rate, or the costs will be charged against any deposit that might be held by the Township.

Before making the first contact with the Township engineer and/or Township Solicitor, the Applicant/Developer must sign this notice acknowledging that they are aware of the costs to be paid by them.

I have read this notice and I aware of the cost to be paid by me.
